THE H.P.N.A. NEEDS YOUR HELP!

The Highland Park Neighborhood Association needs you and your help. As more residents move, more and more of you are not renewing your memberships. Our membership dues are still \$5.00 yearly and \$25.00 for a church or business. These go to keep our office open and to help pay for the printing of the Highland Park Reporter. We are in need of operating money. It is to your advantage to keep your neighborhood association open.

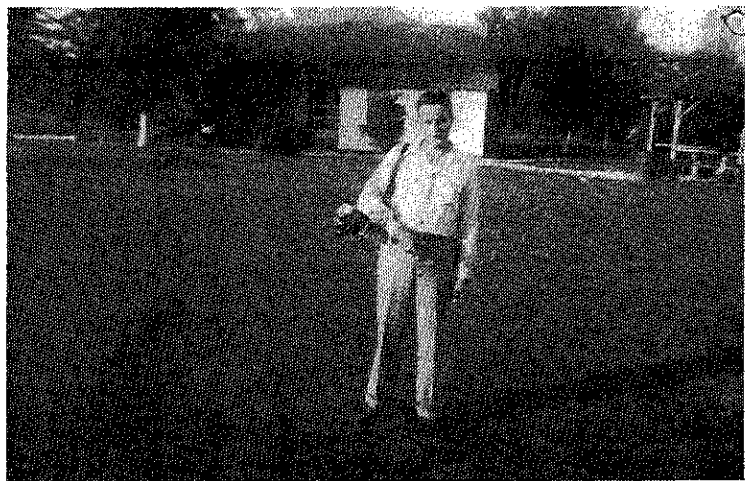

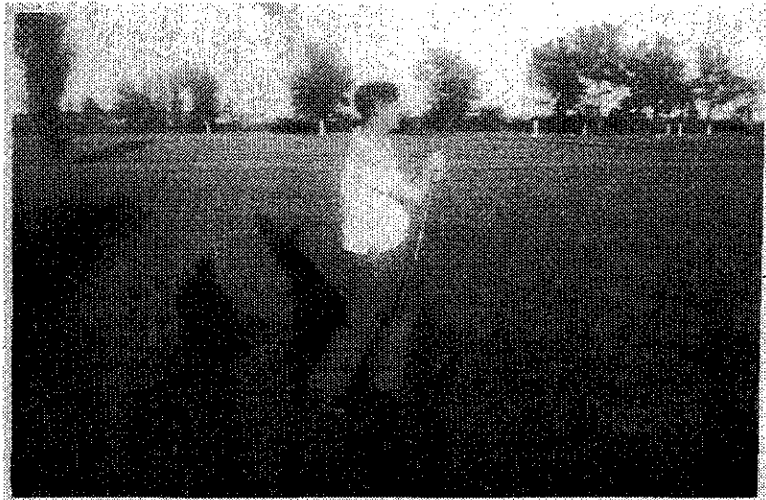

The Association meetings are held on the second Monday of each month at the Highland Park Community center in the Basement. These begin at 7PM and go as long as necessary to give everyone information on what is currently going on. Are you tired of hearing rumors? If so, come to our meetings and hear actually what is going on. At the meetings we have persons who come and explain what is happening legally, our Ombudsman, Bruce Ewing is available for information and assistance. Police officers attend to take complaints on any problem they can be of assistance with. It is to your advantage to come.

If more people do not attend the meetings and get more involved, then it may be a possibility that the neighborhood office will have to be closed. We prefer this does not happen, so get involved and show you still care what happens to Highland Park.

IN FEDERAL COURT

Judge Ronald E. Meredith listened to arguments against the proposed agreement between members of the neighborhoods, the city and the Regional Airport Authority. The hearing which took place on Friday, August 23, 1991, lasted the good part of the day. During this hearing residents and former residents rejected the city's offer of 6.2 million, saying that it is not enough. Also, those who signed quitclaim deeds voiced their objection of being left out of the agreement. The business owners were represented and questioned the validity of the RAA buying this land for commercial use. Legal Aid lawyers, representing a number of tenants, also objected the agreement because tenants were left out. Judge Meredith has indicated he will rule on the objections in two to three weeks. It should be noted that the legal committees from the neighborhoods, the lawyers representing these members and the lawyers for the city and the RAA support the agreement.

Dear Friends:

We, at the McDaniel Funeral Home, have been very much a part of this community since our beginning. And, the changes that occur here affect us as they affect everyone. We understand the confusion and anxiety that many of you may be feeling right now as a result of the airport expansion.

Let us assure you that, regardless of the change, our service to you will not be interrupted. We will continue to provide you, our friends and neighbors, with the professional, caring service you've come to expect from us.
